

try is expected to incur aggregate net loss by up to 90% to ₹100 crore in FY18 from around ₹1,000 crore a year-ago period aided by expected strong peak season demand in the remaining half of this fiscal, ratings agency Icria said in a note on Tuesday.

The projections, however, do not include the financials of full-service carrier Vistara and budget airline AirAsia India.

It has to be noted that the loss is primarily on account Air India losses, while all other major airlines are expected to report profits during the fiscal ending March 2018, Icria said.

The study said the domestic travel demand moderated to 16.3% in the April-September period after having grown at above 20% over the last two years.

Though the jet fuel prices remained higher during the first half of the current fiscal year-on-year, the ability of the airlines to pass-on the same supported the profitability of the industry during this period, it said. "With peak season demand expected to be robust in H2FY18, the aggregate net loss of the industry is expected to reduce to around ₹500 million to ₹1 billion in FY18 from around ₹1.0 billion in the previous year," Icria assistant vice-president and co-head for corporate sector ratings, Kinjal Shah, said.

Significantly, Icria report comes on the day IATA projected a higher net profit of \$38.4 billion for the airlines in 2018, primarily driven by strong demand.

Healthy passenger load factors supported by a decline in compet-

rating agency said.

"This coupled with a gradual improvement in the core growth drivers like economic environment, tourism demand and regulatory support and a strong demand during the peak season is expected to support the industry profitability during H2FY18," it said.

Icria report comes on the day IATA projected a higher net profit of \$38.4 billion for the airlines in 2018

In the last one year, regulator DGCA has suspended the flying permits of Air Pegasus, Air Costa and Air Carnival, all regional airlines following their failure to mop up required

funds for carrying out operations. "All the major airlines are expected to report higher net profits in FY18 as compared to the previous year. However, with many of them having large capacity expansion plans, the debt level of the industry is expected to remain high in the medium term," the Icria executive said.

Be cautious about privatisation of airports, says IATA chief

Flagging infrastructure challenges in the aviation sector, IATA chief Alexandre de Juniac on Tuesday said governments should be cautious about privatising airports as "airport privatisation has not lived up to expectations".

Against the backdrop of many airports worldwide, including in India, grappling with slot issues, he emphasised that airports should be protected with "iron-clad regulation that prioritises the national interest".

Shilpa Medicare gets 10 observations from USFDA for Jadcherla plant

PRESS TRUST OF INDIA
New Delhi, December 5

DRUG FIRM SHILPA Medicare on Tuesday said it has received 10 observations from the US health regulator for its formulation facilities at Jadcherla in Telangana.

The company "has received 483 observations from the United States Food and Drug Administration (USFDA) in relation to SEZ formulation facilities situated at Jadcherla, Telangana," Shilpa Medicare said in a filing to the BSE.

Total 10 observations were cited during the close up meeting, it added.

While seven observations are

regarding improvement in procedures and practices, three observations are related to setting of analytical specifications, test procedures and method validation, Shilpa Medicare said.

As per the USFDA, observations are made in Form 483 when investigators feel that conditions or practices in the facility are such that products may become adulterated or render injuries to health.

The FDA Form 483 notifies the company's management of objectionable conditions.

Shares of Shilpa Medicare closed at ₹635.15 per scrip on the BSE, down 0.24% from its previous close, on Tuesday.
